

Character Creator Prompt

V1 · IMPORT-SAFE · CHARACTERS

Designs a memorable, easy-to-voice cast with consistent looks. The CHARACTERS block imports straight into Story Studio, and the Character Bible gives you image prompts and voice settings.

HOW TO USE

- 1 Fill in the YOUR CAST box.
- 2 Copy the whole prompt into your AI and send it.
- 3 Paste the answer into Story Studio → Import → "Add to this story". Reuse the same CHARACTERS block in the Master Story Prompt so every story keeps the cast.

THE PROMPT — COPY EVERYTHING BELOW

You are a character designer for short animated stories made in YouTube Blue, an app that gives every character their own voice and builds videos from comic panels. Design a cast that is memorable, easy to voice, and easy to draw the same way every time. Your answer will be imported by a strict parser, so the OUTPUT FORMAT below is a hard rule.

YOUR CAST (fill in or leave "you choose")

- Story idea or setting: [you choose]
- Number of characters: [4]
- Audience and tone: [family-friendly comedy, not babyish]
- Must include (optional): [e.g. a grandma, a talking dog, a narrator]
- Art style for images (optional): [simple stick-figure cartoon / 3D animated / comic book / anime ...]
- Who tells the story: [no narrator / a separate NARRATOR / the main character narrates]

DESIGN RULES

1. Each character has ONE clear comedic job in the cast (the planner, the chaos, the skeptic, the know-it-all...) so they never sound alike.
2. Names are short, easy to say, and all different in sound and first letter.
3. Voice direction must be something a voice actor or AI voice can follow: age, pitch (high / medium / low), pace (fast / medium / slow), energy, and one texture word (warm, raspy, bright, dry, squeaky, booming...).
4. Looks must stay identical from picture to picture: give fixed colors, one signature item, and the same outfit every time.
5. Original characters only – no copyrighted or real people.

OUTPUT FORMAT – follow exactly

Your whole answer must be ONE plain-text block, in this order:

TITLE: <a name for this cast, e.g. "The Car Trip Family">

=== CHARACTERS ===

NAME | role and personality in one or two sentences | voice direction: age, pitch, pace, energy, texture

NAME | ... | ...

=== END ===

=== CHARACTER BIBLE ===

(everything in this part is for you and your image AI – it is never imported)

NAME

Look: body shape, hair, face, skin/fur colors, outfit and its colors, one signature item

Image prompt: one ready-to-use sentence that draws this character the same way every time, in the chosen art style, plain background
 Expressions: 4 short expression names to draw (e.g. smug, panicked, delighted, unimpressed)
 Catchphrase: one short line they would say
 Voice test line: one sentence that shows off their voice
 Suggested Chatterbox settings: Exaggeration 0.3–0.8, CFG / pace 0.3–0.6, Temperature 0.6–0.9 (pick values that suit the voice)
 Gets along with / clashes with: one line
 (repeat for each character)

Rules for the CHARACTERS section – this is the part that gets imported

- One line per character, exactly three parts separated by " | ".
- NAME in CAPITALS, one or two words, spelled the same everywhere.
- If there is a separate narrator, include: NARRATOR | Tells the story | voice direction
- If the main character narrates, write "narrates the story" in their role.
- No bullet points, numbers, markdown (** or #), emojis or blank lines inside this section.
- Do not put spoken dialogue anywhere in this answer – no "NAME: words" lines at all. (Stories are written with the YouTube Blue Master Story Prompt, which can reuse this exact CHARACTERS block.)

EXAMPLE OF A CORRECT ANSWER (different cast – do not copy it)

TITLE: The Car Trip Family

=== CHARACTERS ===

JAYDEN | Main character, 9, narrates the story; confident, sarcastic, secretly organized | Kid, medium-high pitch, fast, playful energy, bright

AUNT NICOLE | Cheerfully unreasonable; thinks overpacking is a lifestyle | Adult woman, medium pitch, slow and calm, warm

UNCLE MARCUS | Over-prepared gadget lover, dead serious about nonsense | Adult man, low pitch, slow, deadpan, booming

GRANDMA | Tiny, sharp, hears everything, shows up for the punchline | Elderly woman, high pitch, quick, feisty, raspy

=== END ===

=== CHARACTER BIBLE ===

JAYDEN

Look: skinny stick-figure kid, messy brown hair, big round eyes, blue t-shirt, red sneakers; signature item: a clipboard

Image prompt: simple stick-figure cartoon boy with messy brown hair, big round eyes, blue t-shirt and red sneakers holding a clipboard, plain white background

Expressions: smug, panicked, unimpressed, delighted

Catchphrase: "I have a system."

Voice test line: "Okay, nobody panic – I made a list, and the list has a list."

Suggested Chatterbox settings: Exaggeration 0.6, CFG / pace 0.4, Temperature 0.8

Gets along with / clashes with: Grandma (secret team) / Uncle Marcus (gadgets vs. lists)
 (...and so on for each character)

FINAL SELF-CHECK before you answer

- ☐ The answer starts with "TITLE:".
- ☐ The CHARACTERS section has exactly one "NAME | role | voice" line per character, then "=== END ===".
- ☐ Every name is in CAPITALS and spelled the same everywhere.
- ☐ There are no "NAME: dialogue" lines anywhere.
- ☐ Each character's look has fixed colors and a signature item so images stay consistent.
